

Patricia® Audit

Reward

As a valued client we are committed to helping ensure that you optimize your continued use of the best tools available as we know this will make a real and significant difference to you, especially in the current economic climate.

At the time of your original implementation, you no doubt made excellent use of the advanced functionality then on offer but does this remain the case, are you confident that your existing Patricia® configuration is in line with your current procedures and is there room for improvement?

Increasing efficiency

Increasing efficiency and reducing the costs of your business processes has perhaps never been as important as it is today as this will assist in underpinning your current turnover by improving the levels of service offered whilst maximizing your business potential and profitability. You know that you already have the tools in place to achieve this and further optimizing your use of Patricia® is the key.

Business Analysis & Audit

Via our new Business Analysis & Audit service our expert project leaders, all with IP backgrounds, will work closely with you to review your current processes and use of Patricia®, identifying and recommending areas for improvement that support your latest requirements and future goals.

You will then be provided with a detailed report on where and how you can best streamline your procedures, improve your use and make the most of new functionalities in Patricia® to help ensure the ongoing success of your organization.

The resulting recommendations will therefore be aimed at improving your:

- Profitability
- Efficiency
- Service levels
- Satisfaction
- Client retention
- Resource utilization

For an initial discussion on how our Patricia® Business Analysis & Audit service can benefit your organization, e-mail sales@patrix.com now and one of our Project Leaders will contact you without delay.
