

Switching your IP management system is easier than you think.

(Change before you are forced to!)

Frustrated by your current IP management system (IPMS) but worried that you're too busy to make the switch?

Don't be! These days, migrating to a new IPMS is quicker and simpler than ever before.

In our complimentary webinar on December 15th at 10.00 EDT / 4.00 CET we will set out our tried-and-tested process for migrating your client data to our Patricia® system. From initial data mapping to final configuration, our experts will provide a practical step-by-step guide that fully describes the migration process, including the average time needed per step, as well as tips and tricks for minimising any demand on your internal teams.

REGISTER NOW

As experts in data migration from all major IPMS platforms, you can trust us to fully support you through each step of the process. And, because, we provide the service at a fixed price, you will always know upfront what charges apply.

Don't be afraid to make the change! Sign up today!

Karin Kärving Söholt
