

Give your law firm a competitive advantage!

Join us on October 13th at 10am EDT/4pm CET to discover how the right IP management technology could help your law firm to build efficiencies, reduce risk and optimize operations.

Speakers from Patrix, the provider of the leading IP case management software Patricia™, will share insights and best practices on streamlining administrative workflows, improving data accuracy, saving time – and, keeping clients happy.

Patricia™ was created by IP professionals for IP professionals. We developed the system by carefully listening to our customers' ideas and incorporating their dynamic needs into the software.

Tune in to our 45-minute webinar to find out how using Patricia's workflow-driven system can help you to optimise your operations, including tools for data verification and client collaboration.

Karin Kärvling Söholt

Global Head of Sales and
Marketing at Patrix

Mehrdad Assadi

CTO at Patrix

When: October 13, 2021
10–10.45am EDT/4–4.45pm CET

Register today by emailing sales@patrix.com

NOTE: Please note that this webinar is intended for IP professionals unfamiliar with Patrix and its provided software solutions. Existing Patrix clients will find limited value in attending this webinar.
