

Patricia[®] - the world class IP Management software

Our IP Management software Patricia helps our customers to become more efficient. One of our largest US law firm clients says “the system has made us much more competitive”. This statement is something 30.000 + Patricia users can agree with!

This year we launched a groundbreaking new release of Patricia based on existing capabilities but with a new modern and interactive user interface with improved design and time-saving functionalities.

In addition to our State of the Art IP Management software we provide outstanding support all over the globe, either out of our own offices or through our global partners.

We have a personal touch in everything we do! This is something that makes us unique in the business. We are not part of a big corporation or led by investors, we work close to our customers with long – term relationship as a goal.

If you are curious and want to find out more about Patricia please register, by sending an email to sales@patrix.com, to one of the following demo – sessions:

October 14, 2020 at 10.00 – 10.45 am EST

October 21, 2020 at 10.00- 10.45 am EST
